## *Founder & Chairman*

A passion and need turned into a vision and mission 25 years ago, crossing several milestones to arrive at this day when we celebrate with pride the helping of humanity and the environment

*What is the "vision" and what are the actions?*

The vision is to present the Vegetarian / Vegan lifestyle as a viable, healthful, desirable choice. We say this with a non-judgmental, apolitical, religion neutral voice

Vegetarian Vision, has been able to accomplish this mission through information dissemination, advocacy, action & inspiration. Our efforts have led to a greater number of Vegans and Vegetarians and a heightened knowledge & sensitivity among the communities around our members. We use every tool available – events such as our health & wellness EXPOs, essay competitions for children, alternative Thanksgiving dinners, vegetarian cruises, food festivals, health talks, youth pageants, participation in green events. We have not had the pride to go it alone; we have often partnered with other Vegetarian & Vegan organizations, supporting their activities and including them in ours

*What are our future goals?*

To continue spreading the word so that many of the misconceptions about a plant based lifestyle, and barriers to its viability are reduced. Every day we find new food establishments, new products, new conversations that are plant based; our timing is right and our direction is current

Social media has made it easier and we want to grow through it

Bringing in the youth to carry on our mission and promoting it among their generation will create an enduring legacy

By continuing to partner with other organizations we can build bridges around us

We must gather and create new reservoirs of information. To learn and grow. To teach and change.

I myself have been a lifelong Vegetarian, and with interactions with our Vegan members, I have become a long time Vegan.

It must be so throughout society - in schools and corporate cafeterias, when you travel or visit a friend, at a wedding or a cultural event, and whether you be in a city or a small town

*How you can be part of the journey*

Continue to come to our events, participate with us, become a member, add to our knowledge bank, use the tools of social media, spread the word

A small but distant vision has now grown and became a large reputed Vegetarian organization

*"Our lives begin to end the day we become silent about things that matter" --- Martin Luther King, Jr.*

I want to thank you and our team of volunteers, partners, supporters that have been with us on this journey, never giving up, working, promoting and visioning...

You are an amazing mother and amazing person.

**We are so proud of your work as President of Vegetarian Vision for the last three years, your unique creativity, and your dedication.**

Congratulation on this historic international Health and Wellness Expo

You are an inspiration

## President's Message

# Chandra Mehta

So many exciting things have happened in Vegetarian Vision over the last three years, and I am grateful, and delighted, to have been president during this time. Fond of creativity, and extremely fond of cooking, I am overjoyed by the privileges and many opportunities this organization gave me to help demonstrate just how tasty, and healthy, a vegetarian life can be.

At our very first Jago Hindustani Program, I loved being able to cook and serve to all our guests "chakki ki sabji," an ancient delicacy dating back hundreds of years, a dish that was initially prepared as a meat-replacement for Rajasthani's in India. I am excited seeing our International Health and Wellness Exposition in New York City come to life, where renowned chefs will demonstrate their famous vegan recipes, and celebrated speakers will point to the health benefits of plant based diet.

Through ambassadorship and increasing awareness, our organization has seen tremendous growth in the last few years. Attendance at our annual Thanksgiving dinner has multiplied by many folds, for which I so much enjoyed starting a tradition of showcasing an artistic spectacle of pumpkins at our yearly dinner. We also held a Celebration Cruise, and in years prior a Mr. and Ms. Vegetarian Vision Pageant, which will take place again at this International Exposition.

My wishes for the organization is our continued growth. And as awareness increases, we can help put together change. I hope for more vegetarian options for students at schools and for guests at hotels, by working within communities and businesses. I hope to see restaurants more universally, and consistently acknowledge special preparation for vegetarian foods, including separate cutting utensils when making vegetarian dishes, and separate oils to fry vegetarian foods. We can promote better health, avoid certain medical conditions, and help be a part of treatment for others, through awareness of vegan and vegetarian options.

This year's International Health and Wellness Exposition places our organization on a global stage, and I couldn't be more excited. Our team was absolutely incredible, and my deepest appreciation for their efforts and their tireless dedication in putting it together. It is with great pride we bring this event to New York City, and hope for an amazing experience for all our guests, New Yorkers, and visitors from the world wide!

Sincerely,

Chandra Mehta

Dear Friends:

It is a pleasure to send greetings to everyone gathered for this Silver Jubilee Convention of Vegetarian Vision, celebrating its 25 years of promoting the vegetarian diet and way of life.

The Empire State places the highest priority on the health and well-being of people, and appreciates initiatives that encourage healthy, nutritious food choices. More than ever, people are focused on improving and extending their lives through a combination of smart eating and physical fitness, and today many New Yorkers embrace the vegetarian lifestyle. Vegetarian Vision was founded to help educate people of all ages about the benefits of a vegetable focused diet and its vastly expanded options for preparing wonderfully diverse meals.

The rewards of good nutrition are many and can improve the quality of a person's life in long-lasting ways. We appreciate Vegetarian Vision for promoting vegetables, fruits, whole grains, low-fat dairy products, and lean protein foods to maintain a nutritious well-balanced diet.

New York State continues to bring wholesome, nutritious foods to family dinner tables through its FreshConnect program, which makes locally-grown farm products available to underserved communities. As you gather for a weekend of health and wellness, I applaud Vegetarian Vision for its efforts to reach out to people and communities, sending a message about the benefits of healthy eating, physical activity, and other sensible choices that will lead to longer, healthier lives.

Warmest regards and best wishes for a productive and successful convention.

Sincerely,

ANDREW M. CUOMO

### Message

I am glad to know that the Vegetarian Vision Inc. of New York is celebrating its 25th year of silver jubilee convention at Penn Plaza, Manhattan, New York on September 9th and September 10th 2017.

At the very outset I congratulate Vegetarian Vision on the occasion of its silver jubilee. The organization has been rendering commendable service to promote vegetarian diet as a healthy choice for a healthy living. People around the world have started to understand the importance and benefits of vegetarianism. Vegetarian diet has positive impacts to healthy, environment and animal life. Such a diet is good for young as well as the old. We need to generate awareness among the people about the advantages of vegetarian diet.

I once again convey my best wishes to promoters of Vegetarian Vision for motivating and inspiring people to adopt vegetarianism and wish the event a huge success.

President, Vegetarian Vision,

Respected Shrimati Chandraji Mehta,

I gratefully acknowledge your kind invitation to attend the conference on vegetarianism. It would have been a matter of great joy and privilege to attend this conference but during that period the World Court is in session. You may be aware that all 15 judges from all different parts of the world sit together for adjudication of international disputes amongst the member states. Therefore despite my keen desire to attend the conference , I am compelled to deny myself this great opportunity of associating myself with a noble purpose.

I am extremely happy to learn that you are doing a splendid job in spreading the mission of vegetarian culture in the world. Vegetarianism is not only a fad or showing kindness to other living beings. It is a very scientific and healthy way of living. Adopting a vegetarian diet can be a marvellous entry into experiencing better health. It is sufficiently proved that vegetarian diet reduces incidents of diabetes, cardio-vascular diseases , decreases risk of a stroke and lowering of cholesterol.

I wish the conference a great success.

With warm personal regards,

*Dalveer Bhandari*
